

# In the Name of GOD Most Gracious Most Merciful

## *Quran's mathematical code*

### *The meaning of code:*

1. A systematically arranged and comprehensive collection of laws.
2. A systematic collection of regulations and rules of procedure or conduct: *a traffic code*.
  - a. A system of signals used to represent letters or numbers in transmitting messages.
  - b. *A system of symbols, letters, or words given certain arbitrary meanings, used for transmitting messages requiring secrecy* or brevity.
3. A system of symbols and rules used to represent instructions to a computer; a computer program.
4. *Genetics* The genetic code.
5. *Slang* A patient whose heart has stopped beating, as in cardiac arrest.

### **v. cod-ed, cod-ing, codes**

#### *v. tr.*

1. To systematize and arrange (laws and regulations) into a code.
  2. To convert (a message, for example) into code.
- 
1. *Genetics* To specify the genetic code for an amino acid or a polypeptide

### *Mathematical Challenge*

[2:23] If you have any doubt regarding what we revealed to our servant,\* then produce one sura like these, and call upon your own witnesses against GOD, if you are truthful.

*\*2:23-24 The Quran's miraculous **mathematical code** provides numerous proofs as it spells out the name "Rashad Khalifa" as God's servant mentioned here. Some literary giants, including Al-Mutanabby and Taha Hussein, have answered the literary challenge, but they had no awareness of the Quran's mathematical composition. It is the Quran's **mathematical code**, revealed through God's Messenger of the Covenant, Rashad Khalifa, that is the real challenge - for it can never be imitated. See Appendices 1, 2, 24, & 26 for the detailed proofs*

[2:252] These are GOD's revelations. We recite them through you,\* truthfully, for you are one of the messengers.

*\*2:252 In keeping with the mathematical composition of the Quran, God has willed that the name of the messenger mentioned here shall be spelled out mathematically. **The discovery of the Quran's miraculous 19-based code has been divinely reserved for God's Messenger of the Covenant.** By adding this verse number (252), plus the gematrical value of "Rashad" (505), plus the gematrical value of "Khalifa" (725) we get  $252+505+725 = 1482$ , or  $19 \times 78$ . Please see Appendices 2 and 26 for the complete*

*details related to the proven identity of God's Messenger of the Covenant, to whom this verse clearly refers.*

*The Ultimate Miracle:*  
***The Quran's Mathematical Code\****

[2:106] When we abrogate any miracle, or cause it to be forgotten, we produce a better miracle, or at least an equal one. Do you not recognize the fact that GOD is Omnipotent?

*. \*2:106 The Quran's mathematical miracle is perpetual & greater than previous miracles (34:45, 74:35). Like the Quran itself, it confirms, consummates, and supersedes all previous miracles*

***Corrupted Religious Leaders  
Conceal the Quran's Miracle\****

[2:174] Those who **conceal GOD's revelations** in the scripture, in exchange for a cheap material gain, eat but fire into their bellies. GOD will not speak to them on the Day of Resurrection, nor will He purify them. They have incurred a painful retribution.

*\*2:174-176 Despite their recognition of God's mathematical miracle in the Quran, the corrupted religious leaders tried for many years to conceal this awesome miracle. Many of them admitted that they resented the fact that Rashad Khalifa, not them, was blessed with the miracle.*

[2:252] These are GOD's revelations. We recite them through you,\* truthfully, for you are one of the messengers.

*\*2:252 In keeping with the mathematical composition of the Quran, God has willed that the name of the messenger mentioned here shall be spelled out mathematically. The discovery of the Quran's miraculous 19-based code has been divinely reserved for God's Messenger of the Covenant. By adding this verse number (252), plus the gematrical value of "Rashad" (505), plus the gematrical value of "Khalifa" (725) we get  $252+505+725 = 1482$ , or  $19 \times 78$ . Please see Appendices 2 and 26 for the complete details related to the proven identity of God's Messenger of the Covenant, to whom this verse clearly refers.*

***Major Prophecy Fulfilled\****  
*God's Messenger of the Covenant*

[3:81] GOD took a covenant from the prophets, saying, "I will give you the scripture and wisdom. Afterwards, a messenger will come to confirm all existing scriptures. You shall believe in him and support him." He said, "Do you agree with this, and pledge to fulfill this covenant?" They said, "We agree." He said, "You have thus borne witness, and I bear witness along with you."

*\*3:81 This major prophecy has now been fulfilled. God's Messenger of the Covenant, as prophesied in this verse and in the Bible's Malachi 3:1-21, Luke 17:22-36 & Matthew 24:27, is to purify and unify God's messages which were delivered by God's prophets. Judaism, Christianity, Islam, Hinduism, Buddhism, etc. have been severely corrupted. It*

is the will of Almighty God to purify them and unify them under the banner of worshipping Him alone. Overwhelming evidence has been provided by God in support of His Messenger of the Covenant, whose name is incontrovertibly specified in the **Quran's mathematical code** as "Rashad Khalifa." For example, adding the gematrical value of "Rashad" (505), plus the value of "Khalifa" (725), plus the verse number (81) gives 1311, or 19x69 (see Appendix 2 for the detailed evidence).

[3:86] Why should GOD guide people who disbelieved after believing, and after witnessing that the messenger is truth, and after solid proofs\* have been given to them? GOD does not guide the wicked.

*\*3:86 Verses 3:82-90 inform us that those who reject God's Messenger of the Covenant are no longer submitters (Muslims), since they no longer believe the Quran. **The proofs mentioned in 3:86 refer to the Quran's mathematical code**, which was revealed through God's Messenger of the Covenant. Both 3:86 and 3:90 talk about "disbelieving after believing."*

[3:96] The most important shrine established for the people is the one in Becca;\* a blessed beacon for all the people.

*\*3:96 This is an M-initialed sura, and this peculiar spelling of "Mecca" as "Becca" causes the occurrence of "M" to conform to the Quran's mathematical code. The normal spelling "Mecca" would have increased the frequency of occurrence of "M" (Appendix 1).*

#### *God's Messenger of the Covenant*

[5:19] O people of the scripture, our messenger has come to you, to explain things to you, after a period of time without messengers, lest you say, "We did not receive any preacher or warner." A preacher and warner has now come to you. GOD is Omnipotent.\*

*\*5:19 This verse reports the fulfillment of the biblical and Quranic prophecy regarding the advent of God's Messenger of the Covenant (Malachi 3:1, Quran 3:81). **The name of this messenger is mathematically coded into the Quran as "Rashad Khalifa."** This very special verse warrants the presentation of specific evidence. By adding the gematrical value of "Rashad" (505), plus the value of "Khalifa" (725), plus the sura number (5), plus the verse number (19), we obtain a total of  $505+725+5+19 = 1254$ , or 19x66.*

**Nineteen is the Quran's common denominator**, which was revealed through Rashad Khalifa. More evidence and specific details are in Appendix Two.

### ***The Quran's Common Denominator***

**[74:30] Over it is nineteen.\***

### *Questioning God's Wisdom\**

[6:124] When a powerful proof comes to them, they say, "We will not believe, unless we are given what is given to GOD's messengers!" GOD knows exactly who is best qualified to deliver His message.\* Such criminals will suffer debasement at GOD, and terrible retribution as a consequence of their evil scheming.

*\*6:124 Jealousy and ego are human traits that provoke some people to question God's wisdom in selecting His messengers. Corrupted Muslim scholars have uttered this same utterance regarding the revelation of the Quran's mathematical code through God's Messenger of the Covenant.*

### *The Most Powerful Argument\**

[6:149] Say, "GOD possesses the most powerful argument; if He wills He can guide all of you."

*\*6:149 The Quran's mathematical code is a tangible and utterly incontrovertible proof that this is God's message to the world. It takes divine intervention to prevent any reader from appreciating this extraordinary phenomenon, then falling prostrate, and accepting this overwhelming miracle (see 17:45-46, 18:57, 56:79, and Appendix One).*

### *Mathematics: The Ultimate Proof\**

[6:157] Nor can you say, "If only a scripture could come down to us, we would be better guided than they." **A proven scripture has now come to you from your Lord**, and a beacon, and a mercy. Now, who is more evil than one who rejects these proofs from GOD, and disregards them? We will commit those who disregard our proofs to the worst retribution for their heedlessness.

*\*6:157 The role of the Quran's mathematical code is evident from the fact that the sum of the verse number (157) plus the gematrical value of "Rashad Khalifa" (1230), through whom the code was revealed, gives 1387, or  $19 \times 73$ .*

[10:1] **A.L.R.**\* These (letters) are the proofs of this book of wisdom.

*\*10:1 These letters constitute a major portion of the Quran's awesome mathematical code and proof of divine authorship. See Appendix 1 for details.*

[11:1] **A.L.R.** This is a scripture whose verses have been perfected, then elucidated.\* It comes from a Most Wise, Most Cognizant.

*\*11:1 Our generation is fortunate to witness two awesome phenomena in the Quran: (1) an extraordinary mathematical code (Appendix 1), and (2) a literary miracle*

**of incredible dimensions.** *If humans attempt to write a mathematically structured work, the numerical manipulations will adversely affect the literary quality. The Quran sets the standard for literary excellence.*

[13:1] **A. L. M. R.\*** These (letters) are proofs of this scripture. What is revealed to you from your Lord is the truth, but most people do not believe.

*\*13:1 These initials constitute a major component of the Quran's built-in proof of divine authorship, **the miraculous mathematical code.** See Appendix 1.*

[14:1] **A.L.R.\*** A scripture that we revealed to you, in order to lead the people out of darkness into the light - in accordance with the will of their Lord - to the path of the Almighty, the Praiseworthy.

*\*14:1 These initials remained a divinely guarded secret until **the Quran's mathematical code was discovered in 1974 A.D.** See Appendix 1 for the significance of these initials.*

[15:1] **A.L.R.\*** These (letters) are proofs of this scripture; a profound Quran.

*God's Messenger of the Covenant\**

[15:9] Absolutely, we have revealed the reminder, and, absolutely, we will preserve it.\*

*\*15:1 & \*15:9 The divine source and the perfect preservation of the Quran are proven by **the Quran's mathematical code** (Appendix 1). God's Messenger of the Covenant was destined to unveil this great miracle. The word "Dhikr" denotes the Quran's code in several verses (5:6, 21:2, 26:5, 38:1, 38:8, 74:31). The value of "Rashad Khalifa"  $(1230)+15+9=1254, 19 \times 66$ .*

[25:6] Say, "This was revealed by the One who knows the Secret\* in the heavens and the earth. He is Forgiving, Most Merciful."

*\*25:6 **The Quran's miraculous mathematical code**, the incontrovertible answer to the disbelievers' claims, remained a divinely guarded secret for 1400 years. God's Messenger of the Covenant was destined to unveil it by God's leave (Appendices 1, 2, & 26).*

[25:30] The messenger\* said, "My Lord, my people have deserted this Quran."

*\*25:27-30 This verse refers also to God's Messenger of the Covenant **whose name is mathematically coded in the Quran** as "Rashad Khalifa". If you write down the gematrical value of "Rashad" (505), followed by the gematrical value of "Khalifa" (725), followed by this sura number (25), followed by the verses 27, 28, 29, and 30, the final number (5057252527282930) is a multiple of 19 (see Appendices 2 & 26 for details). The prophet Muhammad will also make such a statement as in 25:30 on the Day of Judgment.*

[40:78] We have sent messengers before you - some of them we mentioned to you, and some we did not mention to you. No messenger can produce ANY miracle without GOD's authorization.\* Once GOD's judgment is issued, the truth dominates, and the falsifiers are exposed and humiliated. \*40:78 We learn from 17:45-46, 18:57, and 56:79 that the unbelievers have no access to the Quran; only the believers and the sincere seekers are permitted by God to understand it. **The Quran's mathematical code, ``One of the great miracles'' (74:30-35), was authorized by God, and revealed through His Messenger of the Covenant (Appendix 2).**

*In the index under the word Study Code, 27:84 is mentioned;*

### ***Study the Quran's Mathematical Code***

**[27:84] When they arrive, He will say, "You have rejected My revelations, before acquiring knowledge about them. Is this not what you did?"**

### ***The Quran's Mathematical Code***

[11:17] As for those who are given **solid proof**\* from their Lord, reported by a witness from Him, and before it, the book of Moses has set a precedent and a mercy,\*\* they will surely believe. As for those who disbelieve among the various groups, Hell is awaiting them. Do not harbor any doubt; this is the truth from your Lord, but most people disbelieve.

**\*11:17 The Quran's 19-based mathematical code is a built-in proof of divine authorship.** *It is noteworthy that the word ``Bayyinah'' (proof) is mentioned in the Quran 19 times.*

**\*\*11:17 As it turns out, Moses' book was also mathematically composed, with ``19'' as the common denominator.** *See Footnote 46:10 and Appendix 1.*

*Rabbi Judah the Pious\**

[46:10] Say, "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon,\* and he has believed, while you have turned arrogant. Surely, GOD does not guide the wicked people."

**\*46:10 This witness is Rabbi Judah the Pious (11th Century A.D.), who discovered the same **19-based mathematical code** in intact fragments of the scripture (see Appendix 1).**

*Noah*

[29:14] We sent Noah to his people, and he stayed with them one thousand years, less fifty.\* Subsequently, they incurred the flood because of their transgressions.

*\*29:14 Since the Quran's miracle is mathematical, **the numbers especially constitute an important part of the 19-based code.** Thus, the numbers mentioned in the Quran add up to 162146, or  $19 \times 8534$  (see Appendix 1 for the details). Nineteen is the common denominator throughout the Quran's mathematical system.*

## *Appendix 1*

### *One of the Great Miracles [74:35]*

The Quran is characterized by a unique phenomenon never found in any human authored book. Every element of the Quran is mathematically composed - the suras, the verses, the words, the number of certain letters, the number of words from the same root, the number and variety of divine names, the unique spelling of certain words, the absence or deliberate alteration of certain letters within certain words, and many other elements of the Quran besides its content. There are two major facets of the Quran's mathematical system: (1) *The mathematical literary composition*, and (2) *The mathematical structure involving the numbers of suras and verses*. Because of this comprehensive mathematical coding, the slightest distortion of the Quran's text or physical arrangement is immediately exposed.

### **THE LITERARY MATHEMATICAL COMPOSITION**

The Quran is characterized by a unique phenomenon never found in any other book; 29 suras are prefixed with 14 different sets of "Quranic Initials," consisting of one to five letters per set. Fourteen letters, half the Arabic alphabet, participate in these initials. The significance of the Quranic initials remained a divinely guarded secret for 14 centuries.

The Quran states in 10:20 and 25:4-6 that its miracle, i.e., proof of divine authorship, was destined to remain secret for a specific predetermined interim:

## THE QURAN'S MATHEMATICAL STRUCTURE

The Quran's suras, verses, words, and letters are not only mathematically composed, but also arranged into a superhuman structure that is purely mathematical, i.e., the literary content has nothing to do with such an arrangement.

Since the physical construction of the Quran is purely mathematical, it would be expected that the numbers mentioned in the Quran must conform with the Quran's 19-based code.

A total of 30 unique numbers are mentioned throughout the Quran, and the sum of all these numbers is 162146, a multiple of 19 ( $162146 = 19 \times 8534$ ). Table 24 lists all the numbers mentioned in the Quran, without the repetitions.

### MATHEMATICAL CODING OF SPECIAL WORDS

#### The Word "God" (Allah)

- [1] As shown earlier the word "God" occurs in the Quran 2698 times,  $19 \times 142$ .  
[2] The numbers of verses where the word "God" occurs add up to 118123, also a multiple of 19 ( $118123 = 19 \times 6217$ ).

These simple phenomena gave us many difficulties while simply counting the word "God." We were a group of workers, equipped with computers, and all of us college graduates. Yet, we made several errors in counting, calculating, or simply writing the counts of the word "God." Those who still claim that Muhammad was the author of the Quran are totally illogical; he never went to college, and he did not have a computer.

This phenomenon alone suffices as incontrovertible proof that the Quran is God's message to the world. No human being(s) could have kept track of 2698 occurrences of the word "God," and the numbers of verses where they occur. This is especially impossible in view of (1) the age of ignorance during which the Quran was revealed, and (2) the fact that the suras and verses were widely separated in time and place of revelation. The chronological order of revelation was vastly different from the final format (Appendix 23). However, the Quran's mathematical system is not limited to the word "God;" it is extremely vast, extremely intricate, and totally comprehensive.

## *THE SIMPLE FACTS*

Like the Quran itself, the *Quran's mathematical coding* ranges from the very simple, to the very complex. The Simple Facts are those observations that can be ascertained without using any tools. The complex facts require the assistance of a calculator or a computer. The following facts do not require any tools to be verified, but please remember they all refer to the original Arabic text:

1. The first verse (1:1), known as "Basmalah," consists of 19 letters.
2. The Quran consists of 114 suras, which is .....19 x 6.
3. The total number of verses in the Quran is 6346, or ....19 x 334.  
[6234 numbered verses & 112 un-numbered verses  
(Basmalahs) 6234+112 = 6346] Note that 6+3+4+6 = .....19.
4. The Basmalah occurs 114 times, despite its conspicuous absence from Sura 9 (it occurs twice in Sura 27) & 114= 19x6.
5. From the missing Basmalah of Sura 9 to the extra Basmalah of Sura 27, there are precisely .....19 suras.
6. It follows that the total of the sura numbers from 9 to 27 (9+10+11+12+...+26+27) is 342, or .....19 x 18.
7. This total (342) also equals the number of words between the two Basmalahs of Sura 27, and 342 = .....19 x 18.
8. The famous first revelation (96:1-5) consists of .....19 words.
9. This 19-worded first revelation consists of 76 letters .19 x 4.
10. Sura 96, first in the chronological sequence, consists of .....19 verses.
11. This first chronological sura is placed atop the last ..19 suras.
12. Sura 96 consists of 304 Arabic letters, and 304 equals .19 x 16.
13. The last revelation (Sura 110) consists of .....19 words.
14. The first verse of the last revelation (110:1) consists of .....19 letters.
15. 14 different Arabic letters, form 14 different sets of "Quranic Initials" (such as A.L.M. of 2:1), and prefix 29 suras. These numbers add up to 14+14+29 = 57 = .....19 x 3.
16. The total of the 29 sura numbers where the Quranic Initials occur is 2+3+7+...+50+68 = 822, and 822+14 (14 sets of initials) equals 836, or ..... 19 x 44.
17. Between the first initialed sura (Sura 2) and the last initialed sura (Sura 68) there are 38 un-initialed suras 19 x 2.
18. Between the first and last initialed sura there are ....19 sets of alternating "initialed" and "un-initialed" suras.
19. The Quran mentions 30 different numbers: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 19, 20, 30, 40, 50, 60, 70, 80, 99, 100, 200, 300, 1000, 2000, 3000, 5000, 50,000, & 100,000. The sum of these numbers is 162146, which equals 19x8534.

***Mathematical Miracle of the Quran\****

[41:41] Those who have rejected the ***Quran's proof\**** when it came to them, have also rejected an Honorable book.

*\*41:41 The word "Zikr" refers to the Quran's mathematical code, as made clear in 38:1*

**[38:1] S. (Saad),\* and the Quran that contains *the proof*\*\***

*\*38:1 This Initial (Saad) occurs in suras 7, 19, & 38 a total of 152 times, 19x8 (Appendix I).*

*\*\*38:1 The word "Zikr" is made distinct from the Quran and clearly points at the Quran's miraculous mathematical code. See 15:6, 9; 16:44; 21:2, 24; 26:5; & 36:11, 69.*

[36:69] What we taught him (the messenger) was not poetry, nor is he (a poet). This is but a formidable ***proof,\**** and a profound Quran.

*\*36:69 The word "Zikr" refers frequently to **the Quran's great mathematical code**, which is certainly not literary, nor poetry. Please check out 38:1,8; 15:6,9; 16:44; 21:2, 24; 26:5; & 36:11.*

***The Quran's Mathematical Code***

[26:5] Whenever a reminder from the Most Gracious comes to them, that is new, they turn away in aversion.
